Bachelor of Engineering in Architecture  
2012-2014 | Suzhou, China

**Interaction Design Certificates**  
Coursera Online course authorized by  
UCSanDiego | 2020-2021

## SKILLS

### Tools

Figma  
Adobe suite,  
Sketch Up, Rhino, Enscape  
Grasshopper, Auto CAD

### Design

Interaction Design, Product design,  
Web design, Graphic design,  
Architectural design  
Prototyping, 3D modelling

### Research

Interviews, Surveys,  
Persona, User Journey Map,  
Competitive analysis, Usability testing

## LANGUAGES

English  
Chinese

## EXPERIENCE

### Yirental | UX Design Intern

2021/04-06 | Seattle, WA

- Conducted qualitative research to define key features for 'property manager search and in-app chat' and delivered potential design options based on research insights.
- Produced high-quality design solutions by creating flow diagrams, low and high-fidelity wireframes, and prototypes for mobile users.

### Greenphyto | UX Design Intern

2021/02-04 | Remote

- Created a more visually appealing and user-friendly platform with a design system for Greenphyto, a vertical farming startup, to improve team efficiency, and improve user satisfaction while managing their farms.

### Link Design Group LLC | Project Designer

09/2019 - Present | Kirkland, WA

- Collaborated with designers, consultants and the city through schematic design and design development for an 184 units affordable housing project.
- Conducted design research on client's need, comprehensive site information and city planning code for 100,000+ sqm mix-use shopping mall project in China.
- 3D building information modelling, visualization using VR and created visual packages using for client reviews, city approval and permit.

### Junya.Ishigami+Associates | Design Intern

2018/06-08 | Tokyo, Japan

- Conducted research, sketched and made models of 100 brainstorm concept design ideas. Tested and classified those concept ideas for further development.

### Kohn Pedersen Fox | Design Intern

2017/06-08 | Shanghai, China

- Conducted site research and case study, making 3D models for an urban village renewal project in China.
- Summarized and visualized complicated Chinese land use regulations into diagrams for U.S. design team.

## UX PROJECTS

### Bidbus

Group work | 2021/04

- Re-designed the official website landing page to be more engaging and guide the users more clearly. Responsible for the wireframes, low-fi & high-fi interface design.

### Food Tracker for Kids

Group work | 2020/12-2021/01

- Designed a food tracker to help parents know children's lunch nutrition balance at school, and motivate children to eat healthy.

## LEADERSHIP

### Gallery Leader at Rhode Island School of Design | 2019

- Led team of ten for arrangement, installation and uninstallation of four significant exhibitions with hundreds of audience.

### Grad Show Designer & Coordinator at Rhode Island School of Design | 2018

- Designed the exhibition, ordered materials and customized equipment. Led team of eight for the exhibition field installation.
